TOGU EU

FAST, EASY AUTOMATIC TOOL GRINDING

All punch press operators know how important tool maintenance is to part quality and tool life. Automatic tool can give a superior quality and process stability, considerably reducing maintenance times.

TOGU-EU automatic tool sharpener has been specially designed for high quality sharpening of sheet metal tools. With fast and reliable sharpening of all standard tools, it allows their optimal repair and guarantees to always produce high quality parts. Unlike traditional grinding machines, the TOGU-EU range can minimise the amount of material removed during grinding, preventing the tool from overheating and extending its life time.

MAIN ADVANTAGES

Superb grinding quality

The system to filter coolant and collect processing dust ensures constant grinding quality.

User friendly numerical control

Touchscreen numerical control ensures simple, user-friendly machine programming.

Safety locking down system

The machine incorporates a unique safety locking system. Visual operation /standby indication.

MACHINE SPECIFICATIONS

		TOGU-EU
Minimum tool diameter	mm	2
Maximum tool diameter	mm	160
Maximum tool length	mm	150 (three-jaw chuck)
Maximum grinding depth	mm/cycle	0.99
Rapid feed speed	mm/min	600
Grinding rate	mm/min	0.03 to 0.06 (depending on station)
Vertical traverse	mm	200
Spindle motor speed	kW	1.5
	min ⁻¹	3000
Machine dimensions (L x W x H)	mm	750 x 821 x 1920
Machine mass	kg	470

Specifications, appearance, and equipment are subject to change without notice by reason of improvement.

For Your Safe Use

Be sure to read the operator's manual carefully before use.

When using this product, appropriate personal protection equipment must be used.

Hazard prevention measures are removed in the photos used in this sheet.
